Tuesday, April 10th

NIMH/NIH Satellite Event (Lucerne, Ballroom Level)

12:30 pm  Astrocytes as an HIV CNS Reservoir

Introduction by Dianne Rausch (National Institute of Mental Health, National Institutes of Health, Bethesda, MD, USA)

4:30 pm  Registration (Lucerne Foyer, Ballroom Level)

Opening Reception (Edelweiss Penthouse, 43rd floor)

6:30 pm  Get reacquainted with friends and colleagues before Wednesday morning’s opening session. The reception will conclude at 7:30 pm.

Mentoring and Networking Event (Montreux, Event Centre)

7:30 pm  Introduction by Kelly Jordan-Sciutto (University of Pennsylvania, Philadelphia, PA, USA) and Lynn Pulliam (University of California, San Francisco)

Inclusive Mentoring presented by Rick McGee (Northwestern University Feinberg School of Medicine, Chicago, IL, USA)

The goal of this event is to foster inclusion and discuss diversity of all kinds. The networking event is intended to facilitate networking and collaboration during the meeting and beyond. Although everyone is welcome, this event will be particularly valuable to early career investigators. Sponsored by the Diversity and Inclusion SNIP Committee and the ISNV Junior Scientists Committee.

Wednesday, April 11th

6:45 am  Registration and Continental Breakfast (Lucerne Foyer, Ballroom Level)

Welcome and Opening Remarks (Lucerne Ballroom, Ballroom Level)

8:00 am  Jonathan Geiger, President, Society on NeuroImmune Pharmacology (SNIP)

Igor Koralnik, President, International Society for NeuroVirology (ISNV)

Session 1:  Intersection of Immune Function and Neurodegeneration in Parkinson’s’ and Alzheimer’s Disease (Lucerne Ballroom, Ballroom Level)

Chairs: David Bennett (Rush University) and Brian Wigdahl (Drexel University College of Medicine)

8:10 am  Elizabeth Bradshaw (Columbia University, New York, NY, USA)

*Human microglia: Translating novel transcriptomes into optimized model systems for drug discovery*

8:30 am  Philip De Jager (Columbia University, New York, NY, USA)

*Human microglia: Definition of over 12 subtypes in cortex by single cell analysis*

8:50 am  Mariko Taga (Brigham and Women’s Hospital, Harvard Medical School, Boston, MA, USA)

*The CD33 locus dictates differential TREM1 response in reaction to amyloid beta*

9:10 am  Daniel Felsky (Columbia University, New York, NY, USA)

*Activated human microglia: Genetic architecture and relation to pathologic traits*
### Session 2: Drug Abuse, Aging and Other Comorbidities in HIV infection (Lucerne Ballroom, Ballroom Level)

**Chairs:** Dionna Williams (Johns Hopkins University) and Roger Sorenson (National Institutes of Health)

Post-doctoral trainees

11:40 am  Amrita Datta Chaudhuri (Johns Hopkins University, Baltimore, MD, USA)
Modulation of μ-opioid receptor signaling pathway by astrocyte-derived extracellular vesicles secreted in response to interleukin-1β
Mentor: Norman Haughey

11:45 am  Susmita Sil (University of Nebraska Medical Center, Omaha, NE, USA)
HIV - Tat induced HIF-1α mediated astrocytic amyloidogenesis: Implications for Alzheimer’s Disease
Mentor: Shilpa Buch

11:50 am  Ana Leda (University of Miami, Miami, FL, USA)
The role of the blood-brain barrier in Zika virus infection
Mentor: Michael Toborek

11:55 am  Kimberly Williams (University of Pennsylvania, Philadelphia, PA, USA)
17β-estradiol suppresses oxidative stress and neurotoxicity in human macrophage neuroinflammatory models
Mentor: Kelly Jordan-Sciutto

12:00 pm  Roozbeh Nikkhah-Moshai (Florida International University, Miami, FL, USA)
TEM-assisted evaluation of drug nano-carrier biodistribution in the brain
Mentor: Madhavan Nair

12:05 pm  Midhun Thomas (University of Nebraska Medical Center, Omaha, NE, USA)
Modulating cellular autophagy for controlled drug delivery
Mentor: Santhi Gorantla

12:10 pm  Questions & Answers (preceding six speakers)

12:20 pm  Lunch Break & Networking (talks resume at 2:00 pm)

Mentorship Luncheon (St. Gallen, Event Centre)

12:20 pm  The Mentorship Luncheon is a networking event intended to facilitate communication between early career scientists and established principal investigators. The luncheon will also lay the groundwork for future mentorship.

Concurrent Sessions

Session 4A (SNIP): Effects of Opioids and Painkillers as Therapeutic and Abused drugs (Montreux, Event Centre)
Chairs: Nazira El-Hage (Florida International University) and T. Celeste Napier (Rush University)

2:00 pm  Elizabeth Salisbury-Afshar (Chicago Department of Public Health, Chicago, IL, USA)
Addressing the opioid crisis: Evidence based practice and public health approach

2:30 pm  Shao-Jun Tang (University of Texas Medical Branch, Galveston, TX, USA)
Neuroinflammatory mechanisms of morphine-induced hyperalgesia

Session 4B (ISNV): Immune Activation in Virologic Diseases (Lucerne Ballroom, Ballroom Level)
Chair: Joan Berman (Albert Einstein College of Medicine) and Walter Royal (University of Maryland School of Medicine)

2:00 pm  Mudit Tyagi (George Washington University, Washington, DC, USA)
Multiple cocaine-stimulated pathways regulate HIV gene expression and replication

2:15 pm  Ibolya Andras (University of Miami Health System, Miami, FL, USA)
The role of RAGE in brain endothelial extracellular vesicle secretion and intercellular amyloid transfer

Alan Prossin (University of Texas Health Science Center at Houston, Houston, TX, USA)
Probing dynamic neuroimmune interactions involving brain mu-opioid receptors and plasma IL-1 family cytokines in negative affective states

The NIH HIV Agenda – From priorities to grant review (Lucerne Ballroom, Ballroom Level)
5:30 pm
Dianne Rausch – NeuroHIV Agenda Relative to Overall NIH HIV/AIDS Priorities
Jeymohan Joseph – NIMH Priorities and Initiatives for NeuroHIV Research
May Wong – NINDS Neuro-Infectious Diseases Program
Roger Sorenson – NIDA: HIV, Drug Abuse, and YOU
Robert Freund – Successfully navigating peer review
Eduardo Montalvo – Grant review at the Center for Scientific Review

Thursday, April 12th
6:45 am
Registration and Continental Breakfast (Lucerne Foyer, Ballroom Level)
Perkin Elmer Breakfast Event (Lucerne Ballroom, Ballroom Level)

Session 6: Animal Models in Neurological Disease (Lucerne Ballroom, Ballroom Level)
Chairs: Howard Fox (University of Nebraska Medical Center) and Joseph Mankowski (Johns Hopkins University)
8:00 am
Howard Fox (University of Nebraska Medical Center, Omaha, NE, USA)
National NeuroAIDS Tissue Consortium (NNTC)
8:10 am
Bill Narayan Lectureship
J. Victor Garcia-Martinez (University of North Carolina at Chapel Hill, Chapel Hill, NC, USA)
HIV persistence in tissue macrophages during antiretroviral therapy
Introduction by Howard Fox (University of Nebraska Medical Center)
8:40 am
Christina Gavegnano (Emory University, Atlanta, GA, USA)
Baricitinib reverses HIV Associated Neurocognitive Disorders in a SCID murine model
8:55 am
Emmie de Wit (National Institutes of Health, Bethesda, MD, USA)
1918 H1N1 influenza virus replicates in the nervous system of ferrets
9:10 am
Ling Cao (University of New England, Biddeford, ME, USA)
Effects of morphine on LP-BM5 murine retrovirus-induced CNS infection in gp120 transgenic mice

Session 7: Novel Strategies Towards Elimination of HIV (Lucerne Ballroom, Ballroom Level)
Chairs: Kamel Khalili (Temple University) and Howard Gendelman (University of Nebraska Medical Center)
9:25 am
Santhi Gorantla (University of Nebraska Medical Center, Omaha, NE, USA)
Mouse models for HIV elimination
9:45 am
Howard Gendelman (University of Nebraska Medical Center, Omaha, NE, USA)
LASER ART theranostics: Pathways for HIV eradication
10:05 am
Kamel Khalili (Temple University, Philadelphia, PA, USA)
Combination of CRISPR and LASER ART eliminates HIV and its rebound in humanized mice
10:25 am  Russell Cruz (George Washington University and Children's National Medical Center, Washington, DC, USA)  
*Antigen-specific T cell-based therapies as cure strategy for HIV*

10:45 am  Morning Break (Lucerne Foyer)

**Session 8: NeuroHIV and Alcohol Use (Lucerne Ballroom, Ballroom Level)**

Chairs: Subhash Pandey (University of Illinois at Chicago and Jesse Brown VA Medical Center) and Sulie L. Chang (Seton Hall University)

11:00 am  Sulie L. Chang (Seton Hall University, South Orange, NJ, USA)  
*Alcohol and HIV co-working in the brain*

11:05 am  Dipak Sarkar (Rutgers, The State University of New Jersey, New Brunswick, NJ, USA)  
*Microglia control stress-immune axis via secreting exosomes*

11:30 am  Subhash Pandey (University of Illinois at Chicago and Jesse Brown VA Medical Center, Chicago, IL, USA)  
*Brain and alcohol: Epigenetic programming and psychopathology*

11:55 am  Shirish Barve (University of Louisville, Louisville, KY, USA)  
*Alcohol, gut-brain axis and neuroinflammation*

12:20 pm  Lunch Break & Networking (talks resume at 2:00 pm)

**Student and Postdoctoral JNIP/JNV Recruitments for Reviews and Editorial Board Assignments (Montreux, Event Centre)**

Chairs: Kamel Khalili (Editor-in-Chief, Journal of NeuroVirology) and Howard Gendelman (Editor-in-Chief, Journal of Neuroimmune Pharmacology)

12:45 pm  An interactive session focused on reviewing scholarly works submitted for publication in the Journal of NeuroVirology and the Journal of Neuroimmune Pharmacology. All students and post-doctoral fellows are invited to participate. Two students and one post-doctoral fellow will be selected from the participants to serve as editorial board members for a period of two years.  
Lunch will not be provided at this event. The event will conclude at 1:45 pm.

**Session 9: Early Career Investigators, Part II (Lucerne Ballroom, Ballroom Level)**

Chairs: Ruth Brack-Werner (Helmholtz Zentrum München) and Jay Rappaport (Temple University)

2:00 pm  Nicole Fernandes (University of California, San Francisco, San Francisco, CA, USA)  
*HIV-infected primary human monocyte derived microglial cells can be targeted for HIV cure*
Mentor: Lynn Pulliam

2:05 pm  Jillian Whelan (University of Pennsylvania, Philadelphia, PA, USA)  
*Zika virus resistance to the antiviral 2',5'-oligoadenylate synthetase/ribonuclease L (OAS/RNase L) pathway*
Mentor: Susan Weiss

2:10 pm  Robert Barclay (George Mason University, Manassas, VA, USA)  
*Exosomes from uninfected cells activate HIV-1 transcription*
Mentor: Fatah Kashanchi

2:15 pm  Audrey Knight (Johns Hopkins University, Baltimore, MD, USA)  
*TREM2 expression increases with SIV encephalitis in a macaque model of HIV CNS disease*
Mentor: Joe Mankowski

2:20 pm  Rosiris Leon Rivera (Albert Einstein College of Medicine, New York City, NY, USA)  
* Preferential transmigration across the BBB of HIV-infected CD14+CD16+ monocytes and potential therapeutic targets to prevent the continued viral seeding of the CNS in the ART era*
Mentor: Joan Berman

**Session 12: Neuroinflammation, Neural Function, and Translational Research: Establishing a Window to the Brain**
*Lucerne Ballroom, Ballroom Level*

**Chairs:** Leah Rubin (Johns Hopkins University) and Gretchen Neigh (Virginia Commonwealth University)

- **9:15 am**
  - Vasiliki Michopoulos (Emory University, Atlanta, GA, USA)
  - *Diet-induced inflammation in female monkeys is related to disinhibited eating and alterations in corticostriatal circuits*

- **9:35 am**
  - Leah Pyter (The Ohio State University, Columbus, OH, USA)
  - *Cognitive and neurostructural consequences of cancer treatments*

- **9:55 am**
  - Gretchen Neigh (Virginia Commonwealth University, Richmond, VA)
  - *Adolescent stress sex-specifically alters neuroimmune reactivity in the hippocampus and periphery*

- **10:15 am**
  - Leah Rubin (Johns Hopkins University, Baltimore, MD, USA)
  - *Patterns and predictors of cognitive impairment among HIV-infected women*

- **10:35 am**
  - Morning Break (Lucerne Foyer)

**Adarsh Kumar Memorial Lecture**
*Lucerne Ballroom, Ballroom Level*

- **10:55 am**
  - Carla Shatz (Stanford University, Stanford, CA, USA)
  - *Saving the synapse: Pruning and plasticity in development and disease*

**Concurrent Sessions**

### Session 13A (SNIP): Role of the Gut-Brain Axis in Controlling CNS Reservoirs
*Lucerne Ballroom, Ballroom Level*

**Chairs:** Siddappa Byrareddy (University of Nebraska Medical Center) and Pankaj Seth (National Brain Research Centre)

- **2:00 pm**
  - Mahesh Mohan (Tulane National Primate Research Center, Covington, LA, USA)
  - *Cannabinoid modulation of the gut brain axis in chronic HIV/SIV infection*

- **2:25 pm**
  - Siddappa Byrareddy (University of Nebraska Medical Center, Omaha, NE, USA)
  - *Role of integrins in modulating SIV/HIV pathogenesis on gut-brain axis*

- **2:50 pm**
  - Amanda Persons (Rush University, Chicago, IL, USA)
  - *Self-administration of methamphetamine in rats induces Parkinson’s disease-like pathology*

### Session 13B (ISNV): Emerging Infections
*Montreux, Event Centre*

**Chairs:** Avindra Nath (National Institutes of Health) and Valerie Wojna (University of Puerto Rico)

- **2:00 pm**
  - Michael Wilson (University of California, San Francisco, San Francisco, CA, USA)
  - *Emerging technologies to detect emerging threats: Metagenomics comes of age*

- **2:30 pm**
  - Tory Patricia Johnson (Johns Hopkins University, Baltimore, MD, USA)
  - *A fatal case of chronic dengue encephalitis*

- **2:55 pm**
  - Christopher Power (University of Alberta, Edmonton, Alberta, Canada)
  - *Fatal leukoencephalitis caused by human pegivirus infection: clinical, molecular and pathological features*
3:05 pm  William Becker (University of South Carolina, Columbia, SC, USA)  
Cannabinoid receptor activation induces unique changes in the murine gut microbiome associated with the induction of anti-inflammatory myeloid-derived suppressor

3:20 pm  Afternoon Break (Lucerne Foyer)  

Session 14A (SNIP):  
Emerging Roles of Astrocytes in Health and Disease  
(Lucerne Ballroom, Ballroom Level)  
Chair: Lena Al-Harthi (Rush University)  

3:40 pm  Benjamin Deneen (Baylor College of Medicine, Houston, TX, USA)  
Decoding astrocyte diversity in the adult and malignant brain

4:00 pm  Shane Liddelow (New York University School of Medicine, New York, NY)  
What do reactive astrocytes do?

4:20 pm  Jeffrey Johnson (University of Wisconsin – Madison, Madison, WI, USA)  
Nrf2 activation in astrocytes modulates disease progression in mouse models of Parkinson’s and Alzheimer’s disease

4:40 pm  Lena Al-Harthi (Rush University, Chicago, IL, USA)  
Role of astrocytes in HAND

SNIP Open Business Meeting (Lucerne Ballroom, Ballroom Level)  
5:00 pm  Jonathan Geiger, President, Society on NeuroImmune Pharmacology (SNIP)

ISNV Board of Directors Meeting (St. Gallen, Event Centre)  
5:00 pm  Igor Koralnik, President, International Society for NeuroVirology (ISNV)

Awards Banquet (Vevey, Event Centre)  
7:30 pm  Join friends and colleagues as we dine together and recognize our award recipients.

Saturday, April 14th

7:45 am  Registration and Continental Breakfast (Lucerne Foyer)

Session 15:  Strategies Against Neuroinflammation and Neurological Infection  
(Lucerne Ballroom, Ballroom Level)  
Chair: Bruce Brew (St. Vincents Hospital Sydney)  
9:00 am  Camillo Rojas (Johns Hopkins University, Baltimore, MD, USA)  
Drug discovery goes back to school: Discovery of small molecule neutral sphingomyelinase2 inhibitors
9:30 am Laura Jaeger (Food & Drug Administration, Silver Spring, MD, USA)
Biomarker use in clinical trials for drug development purposes

Session 16: Special Topics in NeuroVirology (Lucerne Ballroom, Ballroom Level)
Chair: Jennifer Gordon (Temple University School of Medicine)

10:00 am Clayton Winkler (Rocky Mountain Laboratories, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Hamilton, MT, USA)
CCR2 is not required for Ly6Chi monocyte egress from the bone marrow, but is necessary for migration within the brain in La Crosse Virus encephalitis

10:15 am Avindra Nath (National Institute of Neurological Disorders and Stroke, National Institutes of Health, Bethesda, MD, USA)
Human endogenous retrovirus K envelope protein causes nucleolar dysfunction by activating p53- signal pathway

10:30 am Yoshimi Akahata (National Institute of Neurological Disorders and Stroke, National Institutes of Health, Bethesda, MD, USA)
Immunophenotypic characterization of CSF B cells in virus-associated neuroinflammatory diseases

11:05 am Xin Dang (Rush University, Chicago, IL, USA)
Enhanced target-enrichment virus sequencing reveals a complex JC virus population in the brain of PML patients

11:20 am Susanta Mondal (Rush University, Chicago, IL, USA)
Low dose aspirin ameliorates experimental allergic encephalomyelitis via interleukin-11-mediated upregulation of Tregs

11:35 am Rasha Waheed (Rush University, Chicago, IL, USA)
Multiple sclerosis treatment strategy after natalizumab-associated progressive multifocal leukoencephalopathy

11:50 am Mahmut Safak (Temple University, Philadelphia, PA, USA)
Trans-spliced products of JC virus (JCV) late transcripts encode novel proteins detectable in PML patient brain samples

Closing Remarks and Meeting Adjournment (Lucerne Ballroom, Ballroom Level)

12:05 pm Johnny He, 2018-19 President, Society on Neuromune Pharmacology (SNIP)
Igor Koralnik, President, International Society for NeuroVirology (ISNV)
