

**International Society
for NeuroVirology**

ISNV

www.isnv.org

Who are we?

The International Society for NeuroVirology (ISNV) is a non-profit corporation established in 1998. The ISNV provides a forum for researchers and clinician scientists to advance collaboration in all aspects of neurovirology and related disciplines. To further knowledge and promote clinical application of scientific advances, the ISNV publishes the bi-monthly *Journal of NeuroVirology* and holds international meetings that provide platforms for information exchange and collaborative discussion.

What do we do?

Sponsor the **ISNV Symposium** and co-sponsor smaller research conferences in related fields.

Publish the ***Journal of NeuroVirology***, the official publication of the ISNV.

Publish a quarterly **ISNV Newsletter** highlighting cutting edge research by our members and news of Society activities.

Promote the **advancement of junior scientists**, including graduate students and postdoctoral trainees, by offering **travel awards** to attend ISNV meetings and sponsoring activities with senior scientists who offer **career guidance and advice**.

Where do we meet?

The ISNV sponsors an International Symposium on NeuroVirology every 18 months. Each meeting brings together basic and clinical scientists and trainees working in the areas of neurology, neuropathology, neuropathogenesis, neurobiology, neuroimmunology, neurochemistry, and molecular virology. Years and locations of past meetings include:

- 1997 • Philadelphia, Pennsylvania, USA
- 1999 • New London, New Hampshire, USA
- 2000 • San Francisco, California, USA
- 2002 • Düsseldorf, Germany
- 2003 • Baltimore, Maryland, USA
- 2004 • Sardinia, Italy
- 2006 • Philadelphia, Pennsylvania, USA
- 2007 • San Diego, California, USA
- 2009 • Miami Beach, Florida, USA
- 2010 • Milan, Italy
- 2012 • New York, New York, USA
- 2013 • Washington, D.C., USA

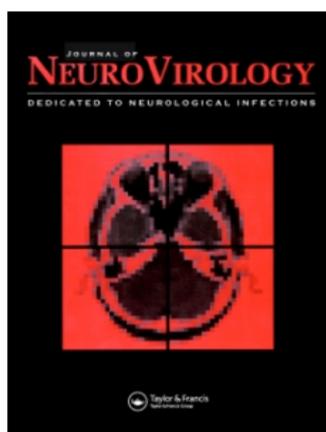

ISNV

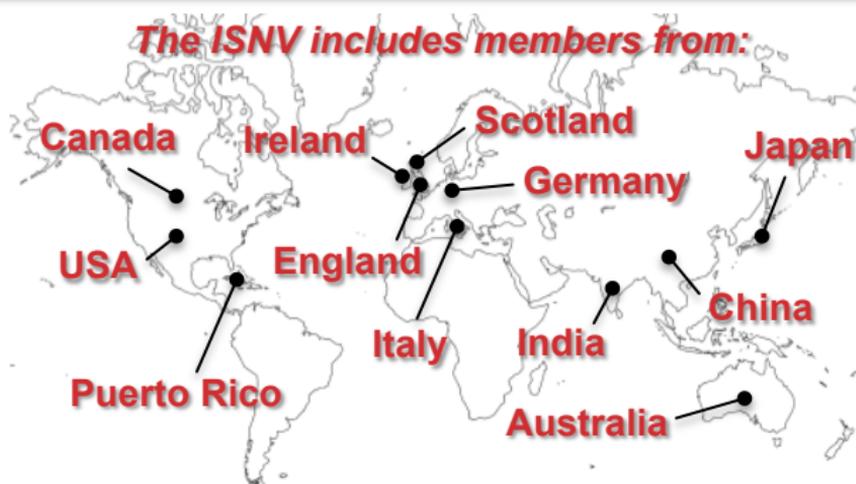

Philadelphia, PA, USA • 2006

Publish with us!

Published as the official journal of the ISNV, the *Journal of NeuroVirology* (JNV) provides a unique platform for the publication of high-quality basic science and clinical studies on the molecular biology and pathogenesis of viral infections of the nervous system, and for reporting on the development of novel therapeutic strategies using neurotropic viral vectors.

Where are our members?

Meet our Pioneers

The Pioneer in NeuroVirology Award is presented in recognition of outstanding achievement in the field of neurovirology. Distinguished awardees include:

- 1999 • Richard T. Johnson, MD
- 2000 • Volker ter Meulen, MD, PhD
- 2002 • Neal Nathanson, MD
- 2003 • Michael B. A. Oldstone, MD
- 2004 • Hilary Koprowski, MD
- 2006 • Opendra Narayan, DVM, PhD
- 2007 • Donald H. Gilden, MD
- 2009 • Diane Griffin, MD, PhD
- 2010 • Kamel Khalili, PhD
- 2012 • Avindra Nath, MD
- 2013 • Brian Wigdahl, PhD

Awards given in the name of our Pioneers recognize outstanding students training in neurovirology and related fields.

Benefit from membership!

The ISNV offers annual membership to faculty, scientists, clinicians, postdocs, and students. Membership in the Society includes a yearly personal subscription to the Journal of NeuroVirology (faculty/scientists/clinicians only) and special rates on Society-sponsored meetings. Student and post-doctoral fellow members also become eligible for trainee travel grants for ISNV meetings.

Get in touch with us

Visit the website (www.isnv.org) for detailed information about membership rates and application, Society activities, and the *Journal of NeuroVirology*.

For more information regarding the International Society for NeuroVirology, applying for membership, benefits of membership, or sponsored events, direct your inquiries to:
